Message from our Media Specialist...

I wanted to pass along this information from the Howard County Library. They have designed a voluntary virtual event that should be posted and sent to coaches by June 10th. It will have a video link along with questions and answers for teams to play along. According to the email from the library, here are a few details:

"Keeping score is purely voluntary and up to individual teams. We are simply making the video available for you to host your own team-centered Battle and celebrate the hard work of your students because we know much your students were excited about and prepared for the event. We shared in your disappointment when the Battle had to be canceled due to the COVID-19 pandemic.

For added fun, we encourage optional team costumes, signs and privacy-friendly photos of your battles that may be shared with the community on our social media platforms. Please stay tuned for more information and prepare for an enjoyable time with your teams."
